

Money Fund - New Zealand Dollar Class

Fund Objective

The objective of Lloyds TSB Money Fund Limited is to offer both the individual and corporate investor a high degree of protection and access to wholesale money markets, whilst maintaining a competitive level of return and ready availability of funds. The policy of the New Zealand Dollar Class is to invest in deposits which are available in the Eurocurrency markets (including deposits placed with members of the Lloyds Banking group), which are denominated in New Zealand dollars.

As a roll-up fund, no dividends are paid and the price normally increases on a daily basis to reflect the accumulation of income.

Percentage Growth

Whilst the price of a share will normally rise as income accrues in respect of underlying investments, such price may fall in certain circumstances such as a substantial change in interest rates. An investment in a currency other than the shareholder's own base currency will be subject to the movement of foreign exchange rates, which may cause an additional favourable or unfavourable change in value. Consequently, investors may, on selling their shares, receive an amount greater or less than their original investment.

*The Net Annualised Return is a projected return based on the current deposits held within the portfolio. As a result this figure is not a guarantee of future returns.
